

## Project 5 Manager Report

- RideShare is a web application intended for commuters to share their rides with others.
- Project 5, the term project, 'RideShare' was developed by following developers:
  1. Ankit Vaghela
  2. Omkar Acharya
  3. Niraj Kadam
  4. Johnathan Kulovitz
  5. Akshay Mendki
- There were no changes asked for us to do during the demo. In addition to what we had during demo, we tried **4NF decomposition** and refined our **UI design**.
- The UML, RM, BCNF, 3NF and 4NF are explained in document file 'UML\_RM\_BCNF\_3NF.pdf'
- The presentation slides are also there in the submission folder with file name 'RIDESHARE.pptx' The presentation slides used in demo had introduction and system architecture. Schema, UML, 3NF and BCNF were explained with PDF document in the class.
- The Insert and Create schema SQL files are added in SQL\_Scripts folder.

### Work Division:

Tasks	Completed by
UML	Everyone
RM, BCNF, 3NF	Ankit Vaghela, Akshay Mendki
4NF	Niraj Kadam
Backend Development	Ankit Vaghela, Omkar Acharya, Akshay Mendki
UI Development	Niraj Kadam, Johnathan Kulovitz
Testing	Everyone

### Developer's Review:

Developer	Review
Omkar Acharya	Exceeds Expectations
Ankit Vaghela	Exceeds Expectations
Johnathan Kulovitz	Meets Expectations
Niraj Kadam	Exceeds Expectations
